Warren works with national banks, regional and local commercial banks, and capital market lenders and borrowers on the origination and restructuring of loans for several types of assets, including single asset and project-based construction loans, term loans, and secured credit facilities. Warren frequently represents lenders on transactions securing multifamily and senior living facilities, hotels, retail, and data centers, along with a variety of mixed-use developments.

He also advises clients on structured finance and bond financing transactions, as well as the acquisition, sale, and leasing of commercial real estate, with extensive experience managing several large-scale portfolios, including the recent sale of 73 assisted-living facilities in 16 states throughout the US.

Warren also serves as outside general counsel for a variety of companies in the fashion retail, cannabis and medical device and technology sectors, skillfully and efficiently directing his clients' legal needs to the appropriate experts within the firm.

Warren, a member of the firm's *Pro Bono* Committee, maintains a robust *pro bono* practice that includes work with The Black Swan Academy, Legal Aid DC, and CAIR Coalition. Warren has also traveled to the southern border to represent detained asylum-seekers separated from their children.

### Previous Work

Before joining ArentFox Schiff, Warren was an Associate in the Real Estate Finance group of a large, Texas-based business law firm.

Warren also served as the President of the DeSoto Independent School District Board of Trustees, and navigated DeSoto ISD through one of its most challenging leadership periods ever. When initially elected, Warren became the youngest elected official in Texas. Subsequently, he was re-elected four consecutive years as the Board's President, making him the youngest Board President in the US. Warren has won praise from local, statewide, and national educators for building strong coalitions, articulating a bold vision for student improvement, and leveraging every available resource (including a nationally recognized sports program in DeSoto, TX) in order to transform a 10,000-student school district into a national example of turnaround success and innovation.
