<p>CDPH-Cal/OSHA COVID-19 Industry Guidance for Automobile Dealerships and Rentals (5/12/2020) Covid-19 General Checklist for Automobile Dealers and Rental Employers (5/7/20)</p>	<ul style="list-style-type: none"> • Employers should provide and ensure workers use all required protective equipment, including face coverings and gloves where necessary. • Face coverings are strongly recommended when employees are in the vicinity of others. Workers should have face coverings available and wear them when at work, in dealership facilities and showrooms, in offices, or in a vehicle for work-related travel with others. Face coverings must not be shared. • Employers must take reasonable measures, including posting signage in strategic and highly-visible locations, to remind the public that they should use face coverings and practice physical distancing. • Communicate frequently to customers that they should use face masks/covers. • Where physical distancing cannot be maintained to minimize exposure between employees and customers, such as Plexiglas or other appropriate barriers, employees are strongly recommended to wear face coverings. • Ask vendors who are required to enter the location to have their employees follow the guidance of local, state and federal governments regarding wearing face coverings and PPE. • Limit passengers in the vehicle during test drives to only a single customer with the employee sitting in opposite back seat, when applicable. Both customer and employee are strongly encouraged to wear face coverings [Note-Industry Guidance Checklist states that during a test drive, “Both customer and employee must wear face covers.”] • Encourage customer appointments and request that customers follow physical distancing and face cover recommendations while waiting for service using visual cues or ask customers to wait in their vehicles. 	<ul style="list-style-type: none"> • Provide temperature and/or symptom screenings for all workers at the beginning of their shift and any vendors, contractors, or other workers entering the establishment. Make sure the temperature/symptom screener avoids close contact with workers to the extent possible. Both screeners and employees should wear face coverings for the screening. • If requiring self-screening at home, which is an appropriate alternative to providing it at the establishment, ensure that screening was performed prior to the worker leaving the home for their shift and follows CDC Guidelines.
